

# Peter Pan, The Gruffalo and Swallows and Amazons

Try as many activities as you like.

Community	Plant 1 seed in a pot and put it somewhere where it will get plenty of light. Then plant another seed in a pot and put it in a dark place. Keep a diary of what happens to both seeds.	Do something kind for someone who is older than you.	How can you save energy in your house?
Literacy	Learn a Phonics poem to share with the class.	Make a poster that shows what you have learned about light.	Use exciting words to describe what you noticed on your day time/night time walk.
Numeracy	Learn the 2, 5 and 10 times tables.	Learn the days of the week and months of the year.	Draw round your shadow and measure it at different times of the day.
Physical	Take a walk in the daylight and walk the same path in the dark. What do you notice?	Teach someone in your family some ballet and bring in some evidence.	Count how many times you can throw and catch a ball without dropping it. Can you improve on this if you practise?
Creative	Create your own shadow puppets.	Draw portraits of everyone in your family.	Create and make a healthy snack.
Topic	Go for a hunt in each room of your house and draw/write all the things that give out light.	Look in 3 different rooms at home and make a list of all the objects that use electricity.	Research a famous inventor and present facts ready for a Teacher Take Over.

 Colour in the rectangle on the grid once you complete the activity.

If you can, please, remember:

It is really important to read at home every day.

Play games and talk with your family.

When you have completed all of the activities you want to try, bring it in. This will earn you an extra 5 dojos! Have fun!

### Spellings

You also have a list of spellings to learn each week at home, we will practise spellings at the start of the school day and do spelling tests on Fridays.
