## Lanesend Primary Confidentiality Policy

### Aim:

To protect children at all times and to give all school staff clear, unambiguous guidance as to their legal and professional roles and to ensure good practice throughout the school which is understood by children, families and staff.

### Rationale:

Lanesend Primary School puts children at the heart of the learning process and provides a safe and secure learning environment. It is committed to developing creative and positive ways for the child's voice to be heard whilst recognising the responsibility to use, hold and safeguard information received. Sharing information unnecessarily is an erosion of trust. The school is mindful that it is placed in a position of trust by all its members and there is a general expectation that a professional approach will be used in all matters of confidentiality.

### Objectives:

- To provide consistent messages in school about handling information about children once it has been received.
- To foster an ethos of trust within the school.
- To ensure that staff, families and children are aware of the school's confidentiality policy and procedures.
- To reassure children that their best interest will be maintained.
- To encourage children to talk to their families and carers.
- To ensure that children and families know that school staff cannot offer unconditional confidentiality.
- To ensure that there is equality of provision and access for all including rigorous monitoring of cultural, gender, religious and additional educational needs.
- To ensure that if there are child protection issues then the correct procedure is followed as outlined in the school's Safeguarding Policy.
- To ensure that confidentiality is a whole school issue and that in lessons ground rules are set for the protection of all.
- To understand that health professionals are bound by a different code of conduct.
- To ensure that families have a right of access to all records held on their own child(ren), except those relating to child protection issues.

### Guidelines

- All information about individual children is private and only shared with those staff that have a need to know. The Headteacher will decide what information will be shared and with whom.
- Staff are not to share any information about children and families outside of school, other than in professional meetings, where confidentiality expectations will be shared.

- All social care, medical and personal information about a child is held in a safe and secure place which cannot be accessed by individuals other than appointed school staff. Medical information that documents a risk to the child is displayed around the school for immediate access to all adults.
- The school continues to actively promote a positive ethos and respect for the individual.
- There is a clear guidance for the handling of child protection incidents. All staff have regular training on child protection issues.
- There is clear guidance for procedures if a member of staff is accused of abuse.
- Staff are aware that some lessons may bring an understanding of what is and is not acceptable in a relationship. This could lead to disclosure of a child protection issue.
- Staff are aware of the need to handle family issues (e.g. same sex families) in a sensitive manner.
- Any intolerance about gender, faith, race culture or sexuality is unacceptable and is sanctioned in line with our Behaviour Policy.
- Both families and children will be informed that notes will be taken during any meeting and they will be asked to sign these notes before leaving the meeting. If the notes are not signed, this is noted at the time.
- Information collected for one purpose is not used for another.
- Families and children are aware that the school cannot guarantee total confidentiality and the school has a duty to report child protection issues.
- Lanesend Primary School prides itself on good communication with families and staff are always available to talk to both children and families about issues that are causing concern. We encourage children to discuss issues with their families that are causing them concern and may, in some cases, support the child in doing so. Where appropriate, child protection disclosures are shared with families as well as the correct authorities.
- Families and children are reassured that only in exceptional circumstances is confidentiality broken.
- All children have a right to the same level of confidentiality irrespective of gender, race, religion, medical concerns and additional educational needs. A lot of data is generated in schools by these categories, but individual children are not identified.
- Lanesend Primary School has trained seven members of staff at Level 3 Safeguarding, the Family Liaison Officer is trained at Level 4 and the Headteacher is trained at Level 5. The Headteacher is the Designated Safeguarding Lead and the other trained members of staff deputize for the Headteacher when needed. Child protection procedures are understood by staff and training is undertaken at least every two years for all staff and updates communicated when they arise.
- Confidentiality is a whole school issue. Clear ground rules are set for any classroom work such as circle time and other PHSE sessions dealing with sensitive issues such as sex and relationships and drugs. Lanesend Primary School is proactive so that children feel supported but information is not unnecessarily

revealed in a public arena. Even when sensitive information appears to be widely known, it is not discussed or shared further.

- Health professionals have their own code of practice dealing with confidentiality.
- Photographs of children are not used without family's permission.
- Information about individual children is only shared with their families. Families do not have the right to access any other child's books or information about their progress at any time.
- Families are aware that information about their child will be shared with the receiving school when they change school. All personal information about children, including social services records, is regarded as confidential. Information regarding health reports such as speech therapy, medical reports, AEN reports, AEN minutes of meetings and social care minutes of meetings and reports are forwarded to the appropriate professionals in sealed envelopes and securely filed. Logs of administration of medication to children are kept secure and each child has their own individual log. Addresses and telephone numbers of families and children are not passed on except in exceptional circumstances or to a receiving school.
- Lanesend Primary School Trustees are mindful that from time to time issues are discussed or brought to their attention about staff and children. All such papers are marked as confidential and destroyed after the meeting. Trustees observe complete confidentiality when asked to do so by the Trustees, especially in relation to matters concerning individual staff, children or families. Although decisions reached at Trustees' meetings are normally made public through the minutes or otherwise, the discussions on which decisions are based are regarded as confidential. Trustees exercise the highest degree of prudence when discussion of potentially contentious issues arises outside the Trustee meetings.

### **GDPR**

All actions will comply with the expectations of GDPR and families are informed how information is stored and for how long.

### **Conclusion**

Lanesend Primary School has a duty of care and responsibility towards children, families and staff. It also needs to work with a range of outside agencies and share information on a professional basis. The care and safety of the individual is the key issue behind this document.

Please see our Data Protection Policy, Complaints Policy and Management of School Records Policy for further information.
